VisiPatch® 360 Panel Kit Instructions

General

The **SYSTIMAX®** **VisiPatch®** VP360 panel kit includes the components to mount two **VisiPatch 360** wiring blocks into an industry standard 19-inch (483mm) wide rack.

This supplements instruction sheet 860387018, **VisiPatch 360** Wall Mounted Panel System. Refer to that document for detailed component installation and cabling.

Ordering information is listed below:

Material ID	Part No.	Description
760074278	VP360-19PNL-KT	**VisiPatch® 360** 19-inch (483mm) 1U panel kit

Step 1 – Install Mounting Panel
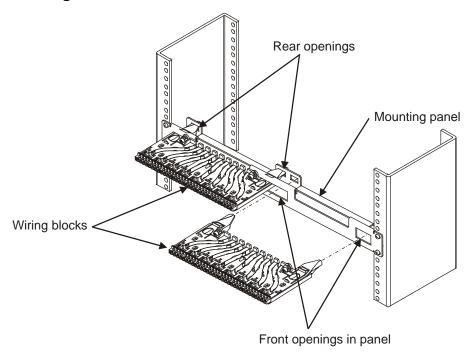

Mounting panel

12-24 x .5" mounting
screws (4 places)

Rack upright

1. Orient mounting panel as shown above and install on rack using the four 12-24 x .5" screws provided.

Step 2 – Install Wiring Blocks

Rear openings

Mounting panel

Wiring blocks

Front openings in panel

1. Insert wiring blocks into front and rear openings in mounting panel until an audible click is heard.

Step 3 – Seat and Terminate Conductors in Wiring Blocks

Note: Wiring is not covered in this instruction sheet. See the instruction sheet 860387018, **VisiPatch 360** Wall Mounted Panel System, for termination instructions.

Step 4 – Install Wiring Block Cover, Label Holders, and Labels

Note: Installed cables not shown.

1. Position cover as shown above and push down onto wiring block until latches in cover engage in wiring block.

2. Position one end of label holder as shown and in Detail A, then flex (bend) holder in the middle until the opening in the other end of label holder can be inserted over opposite pin provided in wire block cover.

3. Release label holder.

4. Tear off one label from sheet provided, designate connection as desired, and slide label into opening provided in top of label holder.
