

SYSTIMAX 360™ Modular Distribution Panel Instructions

General

The **SYSTIMAX 360™** modular distribution panels (DPs) feature MPO aligned-key adapters and are designed for easy interchangeability with **InstaPATCH 360** modules and **360 G2** cartridges. The panels are installed in a MOD panel or MOD shelf where array connectivity to equipment is required. The panels are available in a 2MPO, 4MPO, 6MPO, and 8MPO adapter capacity or as a blank filler panel.

Ordering information is listed below:

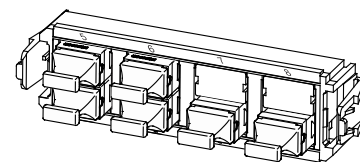

Material ID	Product Number	Description
760107490	360DP-2MPO	Distribution panel, 2 MPO capacity
760107508	360DP-4MPO	Distribution panel, 4 MPO capacity

Tools Required

- Flat blade screwdriver

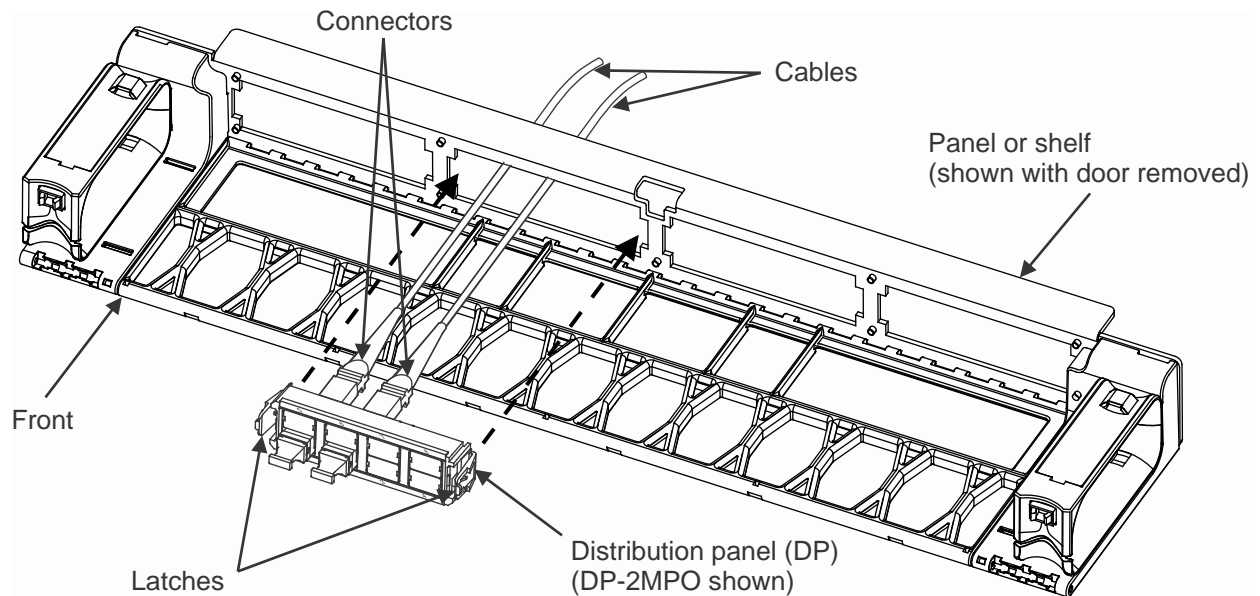

Parts List

Verify parts against parts list below:

Quantity	Description
1	Panel
1	Installation instruction sheet
1	MPO cleaning instruction sheet

Install Modular Distribution Panel(s)

Note: All MPO to MPO connections **must** include a pinned male ferrule connector and an unpinned female ferrule connector. Any attempt to connect male-to-male or female-to-female will result in damage to the connectors.

1. Feed cable(s) with connector(s) through opening in panel or shelf.
2. Insert connector into rear of distribution panel (DP), taking care to orient the connector with the corresponding alignment key feature in the adapter.
3. Insert DP into opening in panel or shelf until latches are engaged and DP is secure.
4. If desired, loosely secure cable to rear of panel or shelf.
